ABOUT ME

I am a junior developer interested in building web and mobile applications. I have experience working with web technologies and Flutter development. I enjoy learning new tools and improving my development skills. I have also explored AI concepts and basic cybersecurity practices to understand how modern applications can be built with better features and security.

Technologies

Frontend:

- React js
- Next js
- Tailwindcss
- Bootstrap

Backend :

- Node js
- Express js

UI/UX :

- Figma
- Canva

App Development :

- Flutter

Tools:

Git & Github
