## PROGRAMMING LANGUAGES

- Python
- C++
- Dart
- JavaScript
- SQL
- HTML5
- CSS3
- CLI / Shell Scripting
- Basic Assembly Language

## WEB & APP DEVELOPMENT

- Full Stack Web Development
- Frontend Development
- Backend Development
- Responsive Web Design
- Flutter Mobile App Dev
- Firebase Integration
- REST API Development

## DATABASE TECHNOLOGIES

- MySQL Database
- MongoDB Database
- Database Design
- Database Management
- CRUD Operations
- SQL Queries

## SOFTWARE & OFFICE TOOLS

- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint
- AutoCAD

# KASHIF MEHMOOD

Software Engineer | Full Stack Developer | Flutter App Developer

## ABOUT ME

Software Engineer with practical experience in developing full-stack web applications and cross-platform mobile apps using Flutter. Proficient in building secure backend systems, creating RESTful APIs, and managing both SQL and NoSQL databases. Strong command of Python, JavaScript, and Dart, with the ability to develop scalable and maintainable software solutions. Experienced in integrating cloud-based services such as Firebase and turning business requirements into reliable, user-focused applications. Comfortable working in agile environments, collaborating with cross-functional teams, and contributing throughout the software development lifecycle. Dedicated to writing clean, efficient code, solving technical challenges, and continuously expanding technical skills to deliver high-quality solutions for global clients.

## PROFESSIONAL EXPERIENCE

### Software Development Engineer

#### Software Development Experience

- Designed, developed, and maintained scalable software applications using modern programming languages and engineering best practices.
- Collaborated with cross-functional teams to define requirements, architecture, and delivery timelines for key product features.
- Wrote clean, well-documented, and testable code, performing debugging and performance optimization across the stack.

### Full Stack Web Developer

#### Web Development Projects

- Built responsive, user-friendly web applications using HTML5, CSS, JavaScript, and modern frontend frameworks(React, Next)
- Developed and integrated backend services and RESTful APIs connected to MySQL and MongoDB databases.
- Implemented authentication, CRUD operations, and database optimization for improved application performance.

### Flutter Mobile App Developer

#### Flutter Applications

- Developed cross-platform mobile applications using Flutter and Dart for Android and iOS from a single codebase.
- Integrated Firebase services including Authentication, Firestore, and Cloud Messaging for real-time functionality.
- Optimized UI/UX for responsiveness, accessibility, and smooth performance across multiple device sizes.

## PERSONAL STRENGTHS

- Problem Solving
- Logical Thinking
- Debugging Skills
- Software Engineering Practices
- Team Collaboration
- Fast Learning
